SENSORY CIRCUS FOR SEND PROVIDERS

WMCC

SENSORY CIRCUS

WEST MIDLANDS CIRCUS CENTRE

At West Midlands Circus Centre we are dedicated to providing enriching arts-based experiences specifically designed for individuals with learning difficulties, hearing and visual impairments, from refugee backgrounds and those labelled as having Profound and Multiple Learning Disabilities or Complex Disabilities.

Our team of experienced and friendly teachers understands the unique needs of our participants, creating a supportive and welcoming environment.

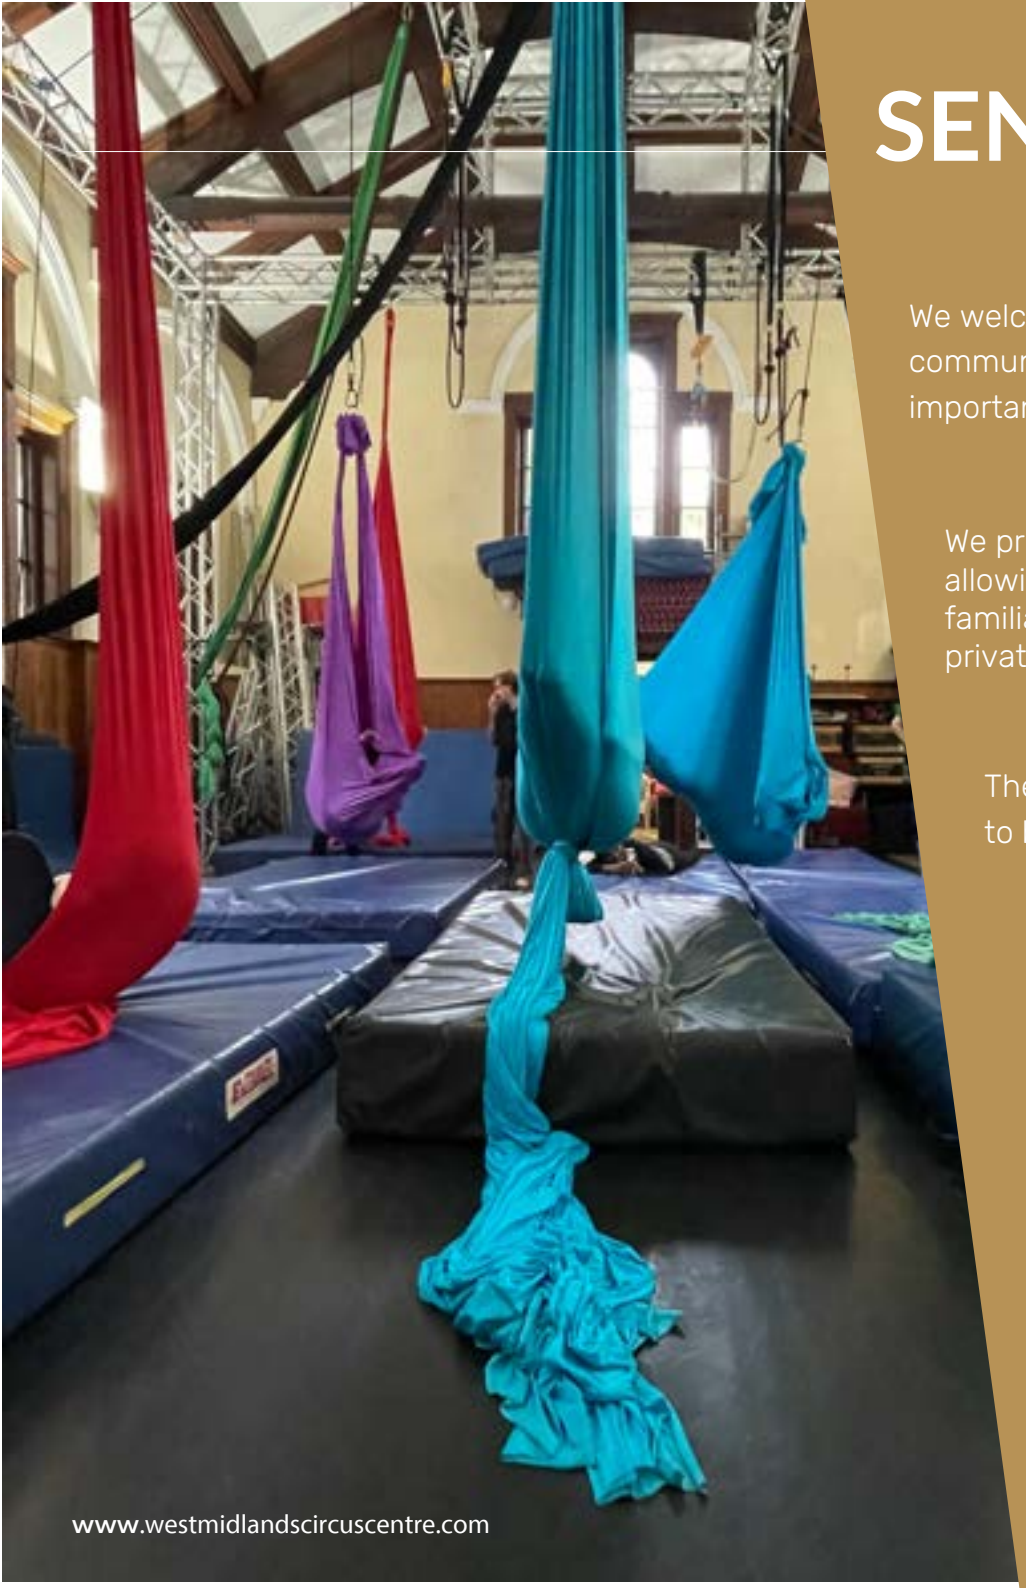

You can visit us at our specialist facilities, West Midlands Circus Centre, or we can come to you. During the sessions the students will be taken through a warm up to start, they will then be taught a variety of different skills depending on the class.

Using individualised 'stations' to teach fundamental circus techniques including basic acrobatics, jumping, balancing and improving coordination. Incorporating trust-building and creative activities this workshop is great for body confidence, co-ordination and skills.

If visiting us onsite they can also have their first experience of flying whether that is with an Aerial Hoop, Silk or Hammock. This can be decided dependant on the students needs or preferences on the day.

£605 FULL DAY
£430 HALF DAY

Can be split into different groups throughout the day with 10-12 participants in each group.

SENSORY CIRCUS

WMCC

WEST MIDLANDS CIRCUS CENTRE

We welcome mixed ability groups, fostering a sense of community and shared learning. We understand the importance of creating a safe and comfortable space.

We prioritise sensory sensitivity: keeping music and lights to a low level and allowing ample time for participants to explore the environment and familiarise themselves before the session begins. We also have our own private garden which is the perfect place to have some time out if it is needed.

The drive behind everything we do is to inspire everyone to be better, healthier, happier and more creative.

We strive to be truly inventive, sharing joy and life experiences in today's world. We are fiercely focused on inspiring young people and embracing change.
